

# Product Manager Army Training Information System

## Achieve and Maintain Readiness.

### WHO IS PdMATIS?

Product Manager Army Training Information System acquires, deploys and maintains a worldwide distributed learning system to ensure our nation's Soldiers receive critical training. Unlike traditional methods of training that are costly, time consuming and require time away from family, our program components provide Soldiers and DA Civilians numerous options to access Army training creating a relevant and ready Army.

### WHAT DOES PdM ATIS DO?

PdM ATIS delivers customer focused, worldwide, adaptive Army Training Enterprise Capability to the Total Force to enable training readiness anytime, anywhere.

### PdM ATIS PROGRAM COMPONENTS

- ATIS (Development) – ATIS will combine 28 legacy training systems into one, single solution that will provide training development, scheduling, resource learning and content management.
- Army Learning Management System – Centralized training management system that hosts courseware and delivers standardized training.
- Range Facility Management Support System – Web Based Range management application.
- Digital Training Facility/Mobile Deployed/Deployed Digital Training Campus – Fixed, deployable and mobile classrooms used to conduct DL training to improve individual and unit readiness.
- Army e-Learning – Offers Courses in IT, Business Leadership, and Professional Development.
- Enterprise Management Center - Technology and communications focal point for the program.

### FAST FACTS
