

October is CyberSecurity Awareness Month

It's essential to remember that October marks the start of Cybersecurity Awareness Month, a dedicated time for individuals and organizations to focus on bolstering their defenses against digital threats and promoting online safety practices. This annual observance underscores the ever-growing importance of cybersecurity in our interconnected world and encourages proactive measures to protect sensitive data and digital assets.

We encourage you to learn about this important topic. [Army e-Learning Percipio](#) has many resources that can assist you. We have chosen just a few of the resources below that are available to help you get started.

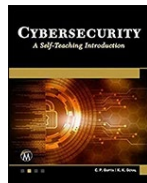

"Cybersecurity is not just about technology; it's about people, processes, and culture."
 - Robert Herjavec, integrator of Internet security software
