Shadow ETM Leadership to Learn & Grow

- Ms. Bettye "Lee" Long-Walden

“ Become a sponge that observes everything you see. You're like a shadow listening and observing. ”

Serving the Aviation and Missile Command (AMCOM) and the Chief Information Officer/G-6 (CIO/G6) in Huntsville, Alabama, Ms. Bettye (Lee) Long-Walden is the Deputy Program Manager for the Multi-user Engineering Change Proposal (ECP) Automated Review System (MEARS). She was selected as this year's Enterprise Talent Management (ETM) Leadership Shadowing Participant. This program allows civilians GS-12 through GS-15 an opportunity to observe Army Senior Leaders to gain insight with another organization, network with professionals, and reflect on professional practices.

Starting at Athens State University, Lee attained two Bachelor of Science Degrees in Mathematics, Computer Science, Computer Information Systems and Science Management. She also obtained a Master of Science in Management from University of Management and Technology (UMT) through the support of the CP 34 Academic Degree Training (ADT) program. Lee was selected as the UMT 2019 Outstanding Graduate for the Distance Education Accrediting Commission. Today, Lee Long-Walden dedicates her vast skillset to provide on-the-job support to Warfighters.

CP 34 continues to support civilians that desire to expand their skillset and enhance job performance. Hooah! Army Strong!

Bridging the Cyber Experience Gap

Got cyber skills, but lack experience to break into the field? Starting March 11, Office of Management and Budget (OMB), is offering a cyber focused detail program that bridges this gap between acquiring cyber skills and gaining hands-on experience.

Engage in this cyber-detail program to gain hands-on cyber experience through a temporary assignment at one of the three agencies: the Environmental Protection Agency (EPA), the Department of Veterans Affairs (VA), and the Department of Homeland Security (DHS). Acquire the needed cyber experience and remain a federal government employee enjoying your current benefits. Over 60 Open Opportunity and intragovernmental positions are available on USA Jobs for you to offer your skills. Supplement your cyber skills with experience.

Search for current opportunities available on [USAJobs.gov!](https://www.usajobs.gov/)

Connect with LinkedIn

Follow the [CP 34 LinkedIn](#) Civilian IT Workforce page for civilian detail opportunities and professional development announcements! Job announcements and related info are also posted regularly. Recruiting the best talent.
