

Ms. Christie Murphy

Deputy Product Manager, Army Training Information System

Ms. Christie Murphy is the deputy product manager for the Army Training Information System (ATIS) — a product office within PEO EIS's Army Data and Analytics Platforms portfolio. In this role, she sets the strategic vision for the program and is responsible for ensuring it meets all cost, schedule, and performance goals. ATIS will develop, integrate, and maintain the enterprise capability for training development, training management, enterprise scheduling, content management, and resource management for Army Soldiers and civilians worldwide.

Prior to assuming the role of deputy product manager, Murphy served as the ATIS Enterprise Management Center (EMC) deputy for 9 years where her responsibilities included managing the technology and communications focal point for the ATIS Program.

Ms. Murphy holds a Bachelor of Science Degree in Computer Science from Norfolk State University. She is a member of the Army Acquisition Corps and is a Defense Workforce Improvement Act Level III certified in Program Management and Information Technology.
