

MR. FRANK WYLES

Chief, Acquisition & Technical Management Division,
Army Training Information System - ATIS

Mr. Frank Wyles Chief of the Acquisition and Technical Management division for the Army Training Information System (ATIS) — a product office within PEO EIS’s Army Data and Analytics Platforms portfolio. In this role, Mr. Wyles is responsible for oversight of PdM ATIS technical management processes, test and evaluation program, and development of program acquisition documentation.

Mr. Wyles has more than 25 years’ experience in information systems development, computer networking, communications electronics, and is a veteran of the United States Marine Corps and Desert Storm with more than 20 years as a DA Civilian providing systems acquisition support for the PdM ATIS program.

Mr. Wyles holds an undergraduate degree in Business and Computer Information System and a Master’s of Science degree in Information Systems from The University of Maryland, Baltimore County. Mr. Wyles successfully completed the National Defense University (NDU) Chief Information Officer (CIO) Program and holds DAWIA Level 3 certifications for Program Management and Information Technology.
