

Percipio Is Coming Soon!

WHAT SKILLS WILL YOU MASTER?

Army e-learning will be upgrading from Skillport to the new learning platform, Percipio. Percipio is an intelligent learning platform that provides meaningful and relevant microlearning content.

Here are just some of the features you can expect:

- **Bootcamps** are a series of interactive streaming events hosted by live instructors. Take advantage of the wisdom of industry-leading experts and practitioners.
- **Skills Benchmarks** allow you to gauge your proficiency in a particular skill.
- **Digital Badges** are visual, shareable, and verifiable records that represent your success in completing a Percipio course.
- **Aspire Journeys** are guided learning paths comprised of content in a recommended order.

WATCH / READ / LISTEN / PRACTICE / ATTEND

Learners consume content in whatever way makes sense for them — videos, books, audiobooks, practice labs, coding sandboxes, and more. Learners can also attend live events, tech and dev bootcamps, and instructor led courses.
